BALTIMORE - THURSDAY, JANUARY 28, 1830

The Capital sold in Shares

The official list of the drawing of the Maryland State Lottery No. 1, for 1830, which took place yesterday afternoon, accompanies this day's Register. The Capital prize of EIGHT THOUSAND DOLLARS came out to an Odd Number, **7963**. The ticket was divided at our Office in shares of three Quarters and two Eighths. Should we receive permission we will mention the names of the fortunate holders; in the mean time we can say that One Quarter was sent to Petersburg, Virginia; and One Quarter to Norfolk in the same State; the other Quarter to Charleston, South Carolina—One Eighth to Richmond, Virginia; and the remaining Eighth to Hagerstown, Maryland—The THOUSAND DOLLAR prize is owned in Baltimore in a whole ticket—The minor capitals (with the exception of the 400 Dollar prize) were all sold in Shares, and were widely distributed. Distant adventurers have again participated exclusively in the Capital prize and we have also to repeat our satisfaction in having been the medium of their continued success—they are respectfully requested to present their tickets for payment, either in person or by mail, as early as may suit their convenience.

THE NEXT SCHEME, No². for 1830 is presented on the next page, and is precisely the same as the last—There being but a small number of tickets, our friends at a distance should send on their orders without delay—The drawing will take place on Wednesday the 24th of February.

Postage on Letters—Important.

In order to lighten as much as possible the expense of postage on the letters to our distant friends and customers, we have so arranged, that tickets or shares will be forwarded to them printed on the same sheet on which we write our letters; on all letters therefore sent from Cohen's Office, Baltimore, to any part of the United States, only single postage can be charged, except in cases where the number of tickets or shares ordered, occupy more than one sheet of paper—We have adopted this mode for several months past, and so much to the satisfaction of our distant friends, that many of them have suggested to us the propriety of noticing the arrangement by a paragraph in the Register, which we have thus accordingly done.

BANK OF THE UNITED STATES.

At an election held by the stockholders of this Bank, at their banking house, on the 4th and 5th instant, the following gentlemen were chosen Directors for the present year viz:—

Nicholas Biddle,	James C Fisher,
Manuel Eyre,	John Sergeant,
Paul Beck, Jr.	John Bohlen,
Lewis Clapier,	Henry Pratt,
Thomas P. Cope,	John R. Neff,
Alexander Henry,	Edward Coleman.

William Platt.

John Potter, of South Carolina.

George Hoffman, of Maryland.

Rossell L. Colt, of Maryland.

Campbell P. White, of N. York.

Isaac Carow, of N. York.

Thomas H. Perkins, of Massachusetts.

B. W. Crowninshield, of Massachusetts.

And at a meeting of the Board of Directors on the evening of the 5th inst. Nicholas Biddle, Esq. was unanimously re-elected President of the Board.

OUR RAIL ROAD AGAIN—It is a source of gratification, to find that the Baltimore and Ohio Rail Road is every day attracting more and more the anxious attention of the public. Almost daily we have visitors from all parts of the United States to examine it for the purpose of acquiring information and of satisfying a most laudable curiosity. On the 16th inst. among the visitors were the Important Committee of Congress on ROADS AND CANALS, consisting of Messrs. Hemphill of Pennsylvania; Blair, of Tennessee; Vinton, of Ohio; Messrs. Armstrong of Virginia; Stanberry, of Ohio; and Standifer, of Tennessee: members of the House of Representatives who came to examine this stupendous project and test personally its great utility.

On Saturday last there was an unusually large concourse on the ground, and among them several members of Congress:

Of the Senate Messrs. BURNETT of Ohio, and BAXON, of Missouri; of the House of Representatives Mr McDUFFIE of South Carolina, Messrs. DENNY, GILMORE and IRWIN of Pennsylvania, Mr. BAXOR of Alabama, Mr. SPRIGG of Maryland, Mr. DESHA of Tennessee, Mr. FINLAY of Ohio, Mr. COLEMAN of Kentucky, Mr. DUNGAN of Illinois, Mr. ALLEN of Virginia, Mr. JOHNS of Delaware, and Mr. HODGES of Massachusetts. These gentlemen left Washington on Saturday morning after breakfast and having been but five hours on the road, arrived here in sufficient time to dine, and afterwards make an excursion on the Rail Road. The Members and some of the Directors, to the number of about twenty five, took their seats in one of the Winans' carriages, and seven or eight gentlemen occupied a light carriage which had a mast and sail. On the excursion out to the Viaduct, these two carriages were drawn by one horse with the greatest ease at the rate of thirteen miles an hour. In the mean time a train of four carriages had been filed with passengers the total number of whom, as nearly as could be ascertained, was little if any short of one hundred and fifty! To this train a single horse only was attached, who drew his immense load estimated to weigh passengers and carriages included, upwards of fifteen tons—at the rate of six miles an hour! Only two of the carriages were on Winans' construction, the other two, which were the largest and heaviest, being without the advantage of friction wheels. This is, we believe the greatest load which has yet been drawn on this Road by a single horse, and the exhibition was well calculated to excite, as it really did, the astonishment of all who witnessed it. On the return from the Viaduct, the carriage containing the Members of Congress started alone, leaving its convoy to make the best of its way back by means of the sail. This the latter effected, but it was only at a moderate speed, the wind being not favourable. We learn that in the morning, however, an experiment was made with the sail, when the carriage was propelled with very great velocity. The rate of speed at which the Members returned was fifteen miles an hour. We are inclined to think that the personal inspection which the Members of Congress have made of the Road, and the exhibition of the vast and decided advantages which they have witnessed, even in the limited performances of Saturday, have left an impression on their minds in the highest degree favourable to all roads in general, and particularly to our great national work.

Rail Road Stock.—We have seen a letter from a respectable house in Liverpool to another in Baltimore, which shews a progressive rise in the value of the Liverpool and Manchester Rail-Road stock. The letter states that the Liverpool and Manchester stock was selling at 180 for £90 paid in part at £100. The Liverpool and Birmingham Junction Rail road Company are about applying to Parliament for a charter.—*Pat.*

The Virginian Convention has at length adjourned, after making a Constitution, by a final vote of fifty-five to forty-one delegates. The section relating to the Judiciary Department was amended, on Wednesday, so as to give power to the Legislature to repeal any law establishing the Courts, but providing the Judges should hold their offices, unless two-thirds of the Legislature concurred in removing them. The new Constitution provides an *advisory Council* to the Governor, to consist of three members, and gives the election of Governor and Council to the Legislature.

State Bank of N. Carolina.—At the late session of the Legislature of North Carolina, an act was passed “to enable the State Bank to wind up gradually and to fix a uniform rate of collection.” This bill extends the Charter of the Bank (which would otherwise have expired in the year 1835) to the year 1838 in order to enable the Bank to call in the debts due, gradually and by instalments, so that the collection thereof may be as little oppressive to the people as the nature of the case and the interests of the Corporation will admit. After the 31st day of December, 1834 the Directors are absolutely forbidden, on any pretence to make any new loan or discount whatsoever. Various other provisions are contained in the act, all tending to the same end of honestly and safely winding up the affairs of the Bank. The bank has determined to receive its own stock in payment of debts due to it, at the rate of 75 per centum on its par value.

Uncommon Despatch.—By the Amethyst, says the Boston Patriot goods are received here, orders for which were sent by the 16th November packet from New York. In 62 days, therefore orders from this country are executed in England, the goods shipped and received here, which is truly very great despatch in the winter season. We received a reply to a letter sent to Liverpool by the Dover, but 48 days having elapsed between despatching the letter hence and receiving a reply.

Lynn Massachusetts.—The population of Lynn is over 50,000, nearly all of whom are supported by the shoe business. From 1,200,000 to 1,400,000 pair of shoes are made annually in the town of an average value of 75 cents per pair, making nearly 1,000,000 dollars. The females of the town earn more than 60,000 dollars annually by binding and ornamenting shoes.—Millions of low priced fancy shoes have been sent to South America, and sold at a profit.—

News Papers in N. York.—In the city of New York are ten daily papers, averaging 185,000 at each publication, and making a weekly aggregate of 111,000 sheets; seven published twice a week, of 1800 each or 25,000 weekly; and sixteen once a week, averaging 3150, and printing 42,000 copies: making a grand total of 188,000 sheets in a week.

Commerce of N. York.—The arrivals at New York from foreign ports, in the year 1829, according to a statement in the American were 356 ships, 26 barques, 391 brigs, 320 schooners, 8 sloops: total 1310—with 16,064 passengers. In 1828, the arrivals were 1277, with 19,023 passengers.

Labor of Convicts.—The Maryland Penitentiary, according to the report of the Board of Directors, contained, on the 30th of November, 356 prisoners, 4 only having died within the year. Within the same period the manufactures produced a profit of \$36,216; exceeding the expense by \$16,043.
